

BUSINESS ENERGY CONTRACTS

Save time and money when you next renew

with Mole Valley Farmers and energy experts, Bionic

Attention to detail:

Bionic will take the time to understand your business first before researching the market, on your behalf, for the best contract for you.

Transparency:

Bionic will keep you informed every step of the way, so you'll be in control at all times. They'll also be transparent with their fees.

Expertise:

Bionic are experts in their field. During the past 10 years they have helped over 250,000 businesses secure the best energy contracts for them.

At least 10% of Bionic customers who made a saving on a three-year business energy contract between January 2020 and May 2020 saved at least **£3,639**.

You can change to a better contract in three simple steps:

- 1. We talk** - One quick call and Bionic will discuss your energy requirements to ensure you receive the right contract in terms of price and supply - taking into account FIT, SEG and greener energy.
- 2. You choose** - Bionic will give you a range of quotes from their panel of trusted suppliers. You choose the one you like and they will take care of everything else.
- 3. You save** - When your current contract ends, Bionic will arrange the renewal for you - so you can start saving money and enjoy lower energy bills.

Even if you're happy with your current **business energy supplier**, it's still worth speaking to us, as Bionic may be able to negotiate a better contract on your behalf.

50% of customers who stay with their existing supplier, after comparing rates, do so on a more competitive contract.

It couldn't be easier to research, review and renew.

"I look forward to discussing this with you."

ROSCOE HOWARD, Energy Contracts Manager, Mole Valley Farmers
